

Ahmad Osama Roslan | IP Network Engineer
Taman Bukit Serdang, 43300, Selangor, Malaysia
(+60) 13-521 0737 • osama.roslan05@gmail.com

A passionate network engineer with strong problem-solving and organizational skills, experienced in L2/L3 routing, Huawei Software-Defined Networking (SDN), and high-risk live cutovers across telco and banking environments besides eager to contribute technical expertise and dedicated support to help the team achieve company goals.

PROFESSIONAL CERTIFICATES AND COMPETENCY

- Cisco Certified Network Associate Routing and Switching (CCNA) - CSC014592764
- NIOSH-Oil and Gas Safety Passport (OGSP)

WORKING EXPERIENCE:

Datacom Engineer

February 2024 - Current

Huawei Technologies (Malaysia) Sdn. Bhd., Integra Tower, Kuala Lumpur

Job Description

- Executed 200+ high-risk and medium-risk network activities for Maxis, including IPMAN and IPCORE network expansions, integrations, migrations, and live cutovers across regional infrastructure.
- Deployed and configured Huawei Firewalls to support Maxis 5G readiness, ensuring high availability and robust security standards.
- Led major enterprise banking projects (Hong Leong Bank, AmBank, OCBC) encompassing network assessment, IP planning/subnetting, topology design, and high-stakes L2/L3 big-bang migrations.
- Deployed Huawei NCE-Fabric and FabricInsight for banking data centers, enabling automated fabric management, real-time analytics, and micro-segmentation / Service Function Chaining (SFC) for enhanced traffic control.
- Implemented Huawei NCE-Campus and CampusInsight for PrefChem, managing enterprise WLAN infrastructure, fine-tuning channel calibration, and performing real-time RF/Wi-Fi performance optimization.
- Established cloud network interconnectivity for Sarawak Digital Economy Corporation (SDEC) to support Huawei Cloud Solutions (HCS), providing tier-2/tier-3 remote support and complex troubleshooting.
- Developed step-by-step execution plans and Method of Procedures (MOP) for migration activities, ensuring strict security compliance and zero-unplanned-downtime cutovers.

Name of Project & Year:

- Maxis Berhad (Integration, Expansion, and Migration) (**2024**)
- Hong Leong Bank Berhad (SDN Tech Refresh) (**2025**)
- AmBank (M) Berhad (SDN Tech Refresh) (**2025**)
- Oversea-Chinese Banking Corporation Limited (SDN Tech Refresh) (**2026**)
- Sarawak Digital Economy Corporation (SDEC) (**2026**)
- Pengerang Refining Company SDN BHD (PrefChem) (**2026**)

Supervisor: Nurul Aina binti Azerin

Designation: EBG Technical Director

Phone Number: 019-910 2939

Email: ainaazerin@gmail.com

Support and Network Engineer (Internship)

August 2022 - January 2023

Breitkom, Network Solution SDN. BHD, Kuala Lumpur

- Provide internet connection to the Residence and Hotel using a TP-Link Modem, Gigabit Ethernet Passive Optical Network (GPON), Fiber Optic, and MikroTik Router.
- Configure MikroTik routers such as Internet Protocol (IP) address on an interface, Domain Name Service (DNS), Default gateway, Dynamic Host Configuration Protocols (DHCP), and Network Address Translation (NAT).
- Configure TP-LINK and Mercusys routers such as Point-to-Point Protocols over Ethernet (PPPoE), Service Set Identifier (SSID), SSID Password, Virtual Local Area Network (VLAN), and Remote management.
- Troubleshoot L1 and L2 problems such as upgrading firmware router, crimping fiber optic and coaxial cable, and ping with traceroute.

Supervisor: Mohd Fiqri bin Mohd Nazri

Designation: Supervisor

Phone Number: 019-919 1974

Email: fiqri@breitkom.com.my

EDUCATION:

Bachelor in Computer Science (Computer System and Network)

2021 - 2024

Universiti Malaya (UM), Kuala Lumpur

- Studied Network Technology and Foundations including switching, and routing.
- Mastered Advanced Network Technologies including autonomous routing, network security, and tunneling.
- Learned about Network Enterprise and Design Architecture including load-balancing and optimization performance.
- Developed a Threat Intelligence Platform (TIP) application as a Final Year Project (FYP) for Pusat Teknologi Maklumat (PTM) UM to help them monitor their network infrastructures and alert them to their vulnerabilities.
- Obtained **CGPA 3.71**

Foundation in Physical Science

2019 - 2020

Universiti Malaya (UM), Kuala Lumpur

- Learn basic programming using C and C++ language.
- Received **CGPA 3.98**

KEY SKILLS:

Core Networking & Protocols:

- TCP/IP, IPv4/IPv6, IP Address Planning & Subnetting
- L2/L3 Routing, VLAN (802.1Q), Trunking, Inter-VLAN Routing, Bridge Domain
- BGP, OSPF, IS-IS, Static Routing, LACP, STP
- VXLAN, MPLS, MPLS-TE, RSVP-TE, Quality of Service (QoS)

Huawei SDN & Cloud Solutions:

- Huawei iMaster NCE-Campus & CampusInsight (WLAN Design & RF Optimization)
- Huawei iMaster NCE-Fabric & FabricInsight (Spine-Leaf Data Center Architecture)
- Micro-segmentation & Service Function Chaining (SFC)
- Huawei Cloud Solutions (HCS)

Interconnection Network Operations & Security:

- Huawei Enterprise Firewalls & 5G Readiness Infrastructure
- High-Risk Live Network Execution: IPMAN & IPCORE Expansion, Cutover, Integration
- Large-Scale Migrations: L2/L3 Big-Bang Migrations & MOP Development
- Network Lifecycle Management: Software Upgrades, Hot Patching & Hardware Refresh
- Tier-2/Tier-3 Technical Support, Network Troubleshooting & Root Cause Analysis

Soft Skills & Leadership:

- High-Risk Activity Execution & Risk Management
- On-Site Subcontractor Supervision & Vendor Coordination
- Stakeholder Alignment & Technical Communication
- Cross-Functional Team Collaboration

HONORS AND AWARDS:

- | | |
|---|------|
| ● Received Dean List Award in Semester 2. | 2021 |
| ● Obtained Dean List Award in Semester 3. | 2022 |
| ● Gained Dean List Award in Semester 6. | 2023 |

ADDITIONAL CAREER DEVELOPMENT:

- | | |
|--|------|
| ● Participated in PWC Capture The Flag (CTF) Competition | 2023 |
| ● Joined in Petronas Inter-University 2023 Capture The Flag (CTF) Competition | 2023 |
| ● Took part in PWC Capture The Flag (CTF) Competition | 2023 |
| ● Joined and completed the Ethical Hacking Workshop under OWASP instructor. | 2023 |
| ● Partook in PWC Capture The Flag (CTF) Competition | 2023 |
| ● Participated Boot2Root Workshop | 2023 |
| ● Joined in Wargames.MY Capture The Flag 2022 (CTF) Student Category | 2022 |
| ● Top 5 finalist in Sime Darby - Palm Game Jam | 2022 |
| ● Took part in Programming League 2021 under FSKTM UM | 2021 |
| ● Special Jury Award and Gold Medal in Malaysians International Young Inventors Olympiad | 2018 |

VOLUNTEER WORK:

Jawatankuasa Tindakan Kolej UM

Oct 2021 – Feb 2022

Technical and Multimedia

- Review poster design and technical parts on any activities in college.
- Suggest design input and changes according to the protocol.
- Handle a workshop for designing and editing.
- Mentor students in designing and editing.
